Dear Participants,

Greetings from ICFOSS!

This is in continuation of your Hybrid Internship Program on **Machine Learning using Python.**

- We are pleased to inform you that your project topic has been assigned as part of the internship. You have also been assigned a mentor who will guide and support you throughout the project.
- Mentorship will be provided on a daily basis, with timings scheduled based on the mentor's convenience. The mentor will inform the time for each session accordingly.
- The attached file contains details of your *selected* ***project, mentor's name, email ID, and contact number*** for your reference.

You are required to submit your project **on or before 25 June 2026, 5:00 PM**. The submission should include:

- Source code
- Project report
- Supporting screenshots demonstrating step-by-step code execution

Please send your project submission via email to **trainingcentre@icfoss.in**, with a **CC** to your assigned mentor (details provided in the attachment).

Kindly note that submissions made after the deadline will not be accepted for evaluation.

Project Presentation Guidelines:

- Total duration: **Maximum 20 minutes**
  - Presentation: **10** minutes
  - Viva Voce: **5–10** minutes
- You must present:
  - **Dataset used**
  - **Developed code**
  - **PowerPoint presentation**
  - **Live demo of the project**
  - Details regarding your project presentation **(date, time slot & presentation link**) will be shared separately **via another email.**

Important Notes:

- Plagiarism is strictly prohibited. You are encouraged to learn from external resources, but the implementation and logic must be your own.
- Projects lacking originality may require resubmission.
- Ensure stable internet connectivity during your presentation.
- For any assistance, feel free to contact your assigned mentor.

The project report template is attached to this email.

Wishing you all the very best.

Regards,

Swatantra, Ground Floor, South Pavilion,
